

Southeast Delco School District's Comprehensive Plan Review

Brenda G. Wynder, Ed.D.
February 24, 2022

Mission/Vision

2019-2022

Mission Statement

The mission of the Southeast Delco School District is to nurture, educate, and challenge students.

Vision Statement

The Southeast Delco School District fosters a student-centered learning environment in which students are problem-solvers, informed decision-makers, as well as collaborative and cooperative learners. All students have access to powerful technological tools which enable them to make connections between knowledge and understanding. In this stimulating atmosphere, access to information and communication with others is unlimited. This nurturing environment provides a quality education by which all our students can achieve academic excellence.

Shared Values

2019-2022

Family and Community

We believe the family is the first teacher. We believe the community is the first classroom. We are committed to drawing upon the strength and input of families in making education work for the students and communities we serve.

Quality Education is the Right of Every Child

We believe every student is entitled to a quality, challenging educational experience preparing each for success in life. We believe that every student's potential must be nurtured with the care and the direction of excellent schools, good programs and a healthy environment.

High Expectations for All

We believe every student and staff member is expected to strive continually toward excellence.

Diversity of Opinion and Culture

We believe a diverse student body helps prepare children for the citizenship in a multicultural democracy. We take pride in our culturally diverse communities and draw strength and lessons from the views of all.
